DOMOTEX INNOVATIONS ON
THE BACK OF THIS FOLDER!**

OLD DUTCH CRAFTSMANSHIP

- Two-layer parquet of exceptional quality
- Tried and tested construction for exceptional stability and fit
- Suitable for floor heating; the heat transfer resistance is no higher than 0.09 m²k/W
- Possible to produce exact lengths, thickness and top layer dimensions
- Q2 can be laid in a wide range of patterns
- Choice from more than 35 wood sorts and 45 distressed colors

YOU DESIGN THE FLOOR, WE CUSTOM MAKE IT.

Thanks for your visit to Domotex 2016. On our stand, you were able to get an impression of the infinite possibilities for customising Q2 floors. This brochure provides you with a handy reference guide. You can find more information on www.q2flooring.com.

Put together your Q2 two-layer parquet in just 3 steps:

01 CHOOSE YOUR WOOD

Choose from 35 wood sorts and 45 distressed colors. We only make use of the very best quality wood, originating from sustainably managed forests (FSC and PETC certified). Just a few examples from our range:

02 CHOOSE YOUR DIMENSIONS

If you advise your client to use Q2, you will have infinite possibilities to have exactly the floor manufactured that you want it. You make the design and give your customer a free choice. Indicate the desired length, width and thickness (also for the top layer) when you place your order and we will develop the floor together with you.

Would you prefer to use standard sizes? Then the summary below will prove helpful.

TWO-LAYER PARQUET HERRINGBONE SIZES

140 x 700	strips up to 1200 mm
120 x 600	
140 x 560	
120 x 480	
90 x 450	
90 x 360	
70 x 490	
70 x 350	
70 x 280	

03 CHOOSE YOUR TREATMENT, COLOR AND FINISH

Finally you can choose from a variety of wood treatments. In addition there is also, of course, the choice for 'untreated' or a finish with oil or varnish. You will find a number of examples of possible wood treatments below: Coarse sawn, plain sawn, brushed and planed.

BRANDS & COLORS

To give you extra ammunition for convincing your customers, we have introduced a quartet of strong brands. Each brand has its own specific color spectrum, from slate grey to a bright bouquet of colors.

INNOVATIONS DOMOTEX 2016

1. PASTIS

Recreate the past with colors. Old pigments reinvented by Pastis.

2. COLORS IN COMMAND

Create a striking pattern with color.

3. Q2 CUBES

Cutting edge elements for an extraordinary artistic result.

4. Q2 PANELS

Good old craftsmanship leads to something new.
